THE BOOK OVER INDIA

India's leaders face immense tasks. The mass of her people are poor and illiterate. How can we help? Two great needs are literacy and the Word of God. Christian agencies are helping to teach 3-4 million people each year to read for the first time, and the movement is growing. We can see to it that our most precious possession, the Bible, is available for all who can read. The Bible Society publishes the Scriptures in over 100 Indian languages. Will *you* help?

THE SIMPLON LINE

At a time when the construction of the Mont Cenis tunnel had scarcely been put in hand, when the plan for laying a line over the Brenner was still being discussed and the Gotthard had entered the lists with a Swiss eastern Alpine railway scheme, the Simplon had its plan for a direct tunnel. However, at the time of realisation the other schemes had long since been brought to fruition, for the Mont Cenis line had been open nearly 35 years, the Brenner almost 40 years and even the Gotthard already 25 years. This was partly due to the fact that the Simplon Tunnel, with its length of nearly 20 kilometres, presented greater difficulties than were encountered in the case of any other, shorter tunnel. The main gallery was pierced on February 24th, 1905, at a distance of 9,385 metres from the southern exit. The total cost of the tunnel, together with the parallel gallery and the installations, amounted to nearly 65 million francs.
